

## PROGRAM INFORMATION

Water quality, wastewater, air emissions, sustainability, and regulatory compliance are all issues that poultry and egg industry environmental managers face daily. USPOULTRY's **2024 Environmental Management Seminar** is an excellent opportunity to stay up to date on these ever-changing challenges. The program, developed by industry environmental leaders, will address these topics and many others that environmental managers face in environmental protection. The 2024 Clean Water Award winners will also be announced.

Protecting the environment continues to be a key concern of our industry. So don't miss this valuable learning opportunity to help your company contribute to a quality environment! Register today!
