

PROGRAM INFORMATION

A successful poultry operation depends on many critical factors. One of those factors is hatchery-breeder management. USPOULTRY's 2024 Hatchery-Breeder Clinic is one of the most informative ways to keep your hatchery and breeder managers up to date on the latest technology, equipment, and effective management techniques. This year's seminar, developed by a panel of hatchery-breeder specialists, will address such topics as Hatchery Automation / Ergonomics . . . Robots in the Hatchery; Bridging the Communication Gap Between Breeders and Hatcheries; Pullet Uniformity; Hatchery QA Programs and Data Utilization ; and much more. To stay up to date on how to increase performance and quality throughout your hatchery and breeder operations, attend this valuable seminar.
