

**U.S. POULTRY & EGG ASSOCIATION
2025 CLEAN WATER AWARD
FOR OUTSTANDING POULTRY
WASTEWATER TREATMENT FACILITY**

Application Rules & Instructions

1. **Please submit entries by June 20, 2025.**
2. A National Award winner and runner-up will be named for both "Full Treatment" and "Pretreatment" facilities.
3. Any USPOULTRY member company is eligible to submit up to three nominees in each category. Facilities which have previously won the award may not be re-nominated for five years. The facility must process poultry, eggs or poultry by-products.
4. A facility must have a minimum of two years of no **significant** noncompliances or Notices of Violation, or any other type of enforcement action. If you have any questions regarding this requirement, please contact Paul Bredwell at (678) 514-1973.
5. Applications should be submitted to: Paul Bredwell
U.S. Poultry & Egg Association
1530 Cooledge Road
Tucker, GA 30084-7303

Email: pbredwell@uspoultry.org

[Note: Applications can be submitted solely in an electronic format.](#)

*Please note that the electronic copy of the application should be submitted in **PDF** format to ensure the file is small enough to send via email.

6. Award winners must be willing to allow USPOULTRY to feature the award recipients on its website and publicize the winning entry in the local/regional/national media. Award winners will have the opportunity to review any publicity release.
7. Should you have any questions or need additional information, please contact Paul Bredwell (678) 514-1973.

The application package consists of two parts. The first part consists of a general information questionnaire about the facility and its treatment performance. The second part consists of a series of essay questions. Rather than providing a response to each essay question directly on the form, the award's judging committee would like to see responses to these questions in a composition format. Photographs, tables, etc., supporting answers to the essay questions should be incorporated directly into the composition/report. Additionally, a facility may include, in an appendix, up to 10 additional pages of pertinent information.

A review committee will meet in July to evaluate the applications and select two or three semi-finalists in each category. All applications will be treated confidentially. The review committee will then visit the semifinalists to select the award winners. The award winners will be announced on September 18, 2025, at USPOULTRY's Environmental Management Seminar.

APPLICATION QUESTIONNAIRE**

11. Effluent Limitations:

Complete the table below (or provide your own table) based on your current permit or sewer agreement. Leave blank, any parameters for which your facility has no limit.

Parameter	Monthly Average		Daily Maximum	
	Concentration (mg/l)	Loading (PPD)	Concentration (mg/l)	Loading (PPD)
Total BOD				
Carbonaceous BOD				
COD				
TSS				
TKN				
Ammonia				
Nitrate				
O&G				
Total Phos				
Ortho Phos				
Chlorine				
Other				
Other				

12. Please provide and attach a table of facility discharge data for the last two years.

13. Is your facility subject to bioassay monitoring? Yes No

If yes, please attach, in summary format, the results of the last four bioassays.

14. Please attach a process flow diagram (PFD) for your wastewater treatment facility. Please indicate on the PFD sizing of major treatment components.

GENERAL INFORMATION
APPLICATION QUESTIONNAIRE**

15. Has this facility been recognized for any other awards in the last three years?

Yes No If yes, please identify award sponsor and nature of award:

16. Provide in the space below the name and telephone number for the contact at your permitting authority familiar with your facility. For a direct discharge, this would most often be the state environmental regulatory inspector or permit writer. For an indirect discharge, this would most often be the pretreatment program manager or coordinator.

Name	Agency	Phone Number
------	--------	--------------

_____	_____	_____
-------	-------	-------
